Summary

Python Developer & Technical Analyst with more than 3 years of experience building real solutions that optimize processes and improve business operations. I specialize in Python, creating everything from automations and internal tools to scalable APIs and backend services. I work designing comprehensive solutions: web applications, desktop systems and custom platforms.
I work with a versatile stack: Python, FastAPI, Laravel, Java and React, which lets me understand the full cycle of a project, from functional analysis to production release.

Work Experience

Python Developer & Systems Analyst
Noble Seguros · Dec 2020 – Present
• Led the implementation and production release of NobleOnline, a digital platform for producers.
• Design and implementation of Python solutions to automate small- and large-scale processes, improving operational efficiency.
• Development of APIs and microservices for robust, scalable integration of internal and external systems.
• Maintenance, refactoring and optimization of legacy systems built in PHP.
• Functional and technical analysis of internal systems, requirements gathering and definition of improvements.
• Implementation and structuring of technical documentation using Docusaurus.
• Audit, tracking and optimization of services provided by external vendors.
• Coordination with technical teams and business stakeholders to ensure deliverables aligned with strategic goals.

Software Developer & Technology Consultant
Self-employed · Dec 2018 – Present
• Implementation of custom technology solutions: web and desktop applications and automations aimed at optimizing business processes.
• Development of APIs and integration architectures for efficient connection between systems and platforms.
• Modernization of legacy systems, technology migrations and integration with new solutions.
• Design and development of e-commerce platforms and content management systems (CMS).
• Processing, analysis and handling of large data volumes for strategic decision-making.
• Technical advice and tailored consulting, supporting clients in defining and implementing scalable technology solutions.

Sports Event Organization Assistant
Maratón de Buenos Aires · Oct 2017 – Oct 2019
• Agile handling and resolution of incidents and contingencies at mass sporting events (10K, 21K and 42K), ensuring operational continuity.
• Coordination with operations, logistics and staff teams to ensure the event ran correctly.
• Personalized service and direct assistance to runners and participants, providing support before, during and after the race.
• Preparation of post-event reports, analysis of critical situations and implementation of improvements for future editions.

Systems Technical Support & Administrative
Laboratorio Dr. Enrique Iovine · Apr 2015 – Nov 2020
• Full administration and maintenance of the computer fleet and network infrastructure, ensuring the laboratory's continuous operation.
• Technical support for users, diagnosis and resolution of hardware and software incidents, optimizing response times.
• Installation, configuration and maintenance of security systems and IP cameras.
• Operation and administration of the LabWin internal management system, ensuring correct data entry and updates.
• Administrative and accounting management: billing to health insurers (obras sociales), account control and collections follow-up.

• Logistics coordination of the blood-draw team, organizing routes and optimizing operational resources.

Skills

Backend: Python, FastAPI, Django, Flask, Laravel, PHP, Java, Spring Boot, Spring Cloud
Frontend: React, JavaScript, Astro, HTML5, CSS3
Databases: SQL, pgAdmin, DBeaver, MySQL Workbench
Development tools: Git, GitHub, Docker, VS Code, PyCharm, Postman, Insomnia
Documentation: Docusaurus, MKdocs
Project management: Jira, ClickUp, GoodDay
Support and infrastructure: Network and connectivity administration, Full hardware and software maintenance, Security system and IP camera setup
Management software: LabWin, SISE
Office and communication: Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Microsoft Teams, Slack, Discord
